

JAIMA Online Symposium Held at Pittcon 2022 Conference Highlights

The Japan Analytical Instrument Manufacturers' Association(JAIMA) will be holding "JAIMA Online Symposium" at "PITTCON 2022 Conference Highlights" on May 20 (May 19 EST).

JAIMA has been organizing symposia on advanced analytical technologies (Japan Symposium) at the exhibition since 2008 as part of its globalization efforts. Since 2017, in conjunction with JAIMA's expansion into the life science field, the JAIMA Symposium "Analytical Solutions for Biopharma & Biotherapeutics" has been held under the theme of analytical solutions in advanced drug discovery.

This year's exhibition was cancelled due to COVID-19, and only some symposia are being held online from March to June. Among them, JAIMA will hold "Recent Achievements and Current Interests in Research on the Characterization and Quality Control of Biopharmaceuticals", which focuses on topics related to evaluation methods for antibody drugs, a field that has been attracting much attention in the life science field in recent years.

【Program】

Date: May 20th 2022 2:00-5:45 AM (May 19th 13:00-16:15 PM EST)

It is able to register from below URL freely.

NO	Title	Speaker
1	Recent Achievements and Current Interests in Research on the Characterization and Quality Control of Biopharmaceuticals	Akiko Ishii-Watabe, National Institute of Health Sciences, Japan
2	Absorbance-Transmission Excitation Emission Matrix Spectroscopy – Molecular Fingerprint for the Characterization of Low Concentration or Highly Similar Biopharmaceuticals	Linda Yarlott, Horiba Instruments Inc.
3	Capturing the Physical Properties of Highly-Concentrated Antibody Solutions from Raman Spectroscopic Analysis	Satoru Nagatoishi, The Institute of Medical Science, University of Tokyo
4	Evaluation of Protein Structure Using Small-Angle X-Ray Scattering (SAXS)	Angela Criswell, Rigaku American Corporation
5	Analysis of Monoclonal Antibody (mAb) and Related Biologics by LC and LC-MS Platforms	Mridul Mandal, Shimadzu

【About Pittcon】

One of the world's largest conferences and exhibitions of laboratory equipment, attracting

more than 18,000 attendees from companies, educational institutions, and government agencies in over 90 countries. This year, the event will be held online but it is usually held in March in a city in the mid-eastern United States.

JAIMA has concluded an MOU(memorandum of understanding) with the Pittcon Committee, the exhibition's secretariat, and exhibits a JAIMA booth at the exhibition every year.
